Vol. 1 #3

Cat of the Month

Pearl

This month's featured cat is Pearl. Pearl is our oldest cat in the center. She currently lives in Room 1 with the kitties as their grandma cat keeping the little ones in line.

She was returned to us after her previous owner had to go into a nursing home and could not take a cat into the home.

One on one, Pearl is a wonderful cat. Although not a lap cat, Pearl is content to lay beside you while you sit and read or watch TV. She is an only cat - cat meaning she is completely content with being by herself and getting all of the attention and not sharing with others. Born on March 2020, she has many good years to spend with her furever family. She is fully vaccinated and fixed and waiting to be adopted.

By the Numbers

We have 35 adoptable cats in the center at this time - August 10th

From the start of June 1 to end of July we have seen 10 of our cats adopted!

After being returned to us and staying in the center for 3 years, Stella, the Office Manager, has finally been adopted!

Room Renovations

If you haven't been to the center in a while, you will see a lot of changes in the rooms! The cats now have new wall elements from ledges to elevated beds to ladders and more. All cat trees have been updated to the new sturdier and to the ceiling cat trees so now that cats can pounce and run up and down without them coming down like fallen timber! Rooms 2,3,4 & 5 have been renovated and room 1 will be finished in September. Come on by and see the new cat stomping grounds!
